

ANNEX IV 2027

Prize regulations

On this side of Marão, we run with heart.

ANNEX STRUCTURE

1. Principles and covered races

2. Individual prizes, team prizes, vouchers and partner benefits

3. Official segments and records

4. Eligibility, validation and payment

5. Ties, invalidation and final provisions

This Annex IV forms an integral part of the UTM 2027 General Regulations. In prize matters, its special provisions shall prevail, without prejudice to applicable mandatory law.

ARTICLE 1 — PURPOSE AND PRECEDENCE

This Annex governs cash prizes, team prizes, registration vouchers for the 2028 edition, partner prizes and experiences, official segments, records and the conditions governing award, validation and payment for UTM 2027.

In prize matters, this Annex prevails over the general rules. Where it is silent, the General Regulations and Annex III apply.

ARTICLE 2 — NATURE OF VALUES AND BENEFITS

All monetary amounts stated are gross amounts and are subject to the legally applicable tax and documentary obligations. Registration vouchers and free entries under Articles 7 and 8 do not constitute cash payment and may not be converted into cash. Partner prizes, experiences, stays, equipment and products are non-cash benefits. A reference commercial value is for information purposes only and corresponds to the retail price or another objectively supported market value. Where a minimum commercial value is set, the composition of the benefit may vary according to availability, provided that its nature is maintained and a value equal to or greater than the announced value is ensured. The Organisation may communicate the total reference value of a package by adding the voucher value to the non-cash benefits, without those benefits becoming monetary in nature or being convertible into cash.

ARTICLE 3 — RACES WITH CASH PRIZES AND NON-CASH BENEFITS

Overall and team cash prizes apply to UTME 120K and UTM 60K. TM 40K, MTM 25K and TMC 15K do not offer overall or team cash prizes. Instead, these races provide UTM 2028 vouchers, free team entries and the non-cash benefits set out in Articles 7 and 8. Benefits identified as guaranteed constitute the minimum award for the relevant placing; the Organisation may add further products, experiences or offers without reducing those already announced.

ARTICLE 4 — INDIVIDUAL PRIZES — UTME 120K

CLASSIFICATION	MEN	WOMEN
1st	1.300 €	1.300 €
2nd	800 €	800 €
3rd	600 €	600 €
4th	400 €	400 €
5th	300 €	300 €

ARTICLE 5 — INDIVIDUAL PRIZES — UTM 60K

CLASSIFICATION	MEN	WOMEN
1st	750 €	750 €
2nd	500 €	500 €
3rd	300 €	300 €

ARTICLE 6 — TEAM CASH PRIZES

The team prizes provided for in this Annex are awarded on the basis of UTM's own team classification defined in Article 13 of Annex III.

Classification is calculated separately for men's and women's teams and for each race. The three highest-placed eligible athletes from each team are counted, and the team classification is determined by the sum of their positions in the official overall classification. The team with the lowest total number of points wins.

Tie-break criteria are those established in Annex III.

Team prizes are independent of any team classification produced for Portuguese Athletics Federation purposes. Where an FPA team classification exists, it is calculated separately under the applicable federation rules.

RACE	1ST TEAM	2ND TEAM	3RD TEAM
UTME 120K	1.000 €	600 €	400 €
UTM 60K	600 €	350 €	250 €

Payment is made to the team representative formally designated for that purpose, subject to the legally required tax documentation.

ARTICLE 7 — GUARANTEED INDIVIDUAL PRIZES — TM 40K, MTM 25K AND TMC 15K

The top three athletes in the Overall Men's Classification and the Overall Women's Classification of TM 40K, MTM 25K and TMC 15K receive the prizes set out in this Article, on identical terms for men and women and as a guaranteed minimum benefit for each placing.

SUMMARY TABLE OF GUARANTEED PRIZES

RACE	1ST PLACE	2ND PLACE	3RD PLACE
TM 40K	UTM 2028 Voucher — €100 + accommodation for 2 people / 2 nights ≈ €200 + technical/nutrition kit ≈ €150 Total value ≈ €450	UTM 2028 Voucher — €70 + partner products and/or benefits ≈ €180 Total value ≈ €250	UTM 2028 Voucher — €50 + partner products and/or benefits ≈ €100 Total value ≈ €150
MTM 25K	UTM 2028 Voucher — €70 + accommodation for 2 people / 1 night ≈ €100 + technical/nutrition kit — minimum commercial value €100 Total value ≈ €270	UTM 2028 Voucher — €50 + partner products and/or benefits ≈ €100 Total value ≈ €150	UTM 2028 Voucher — €40 + partner products and/or benefits ≈ €60 Total value ≈ €100
TMC 15K	UTM 2028 Voucher — €60 + accommodation for 2 people / 1 night ≈ €70 + technical/nutrition kit — minimum commercial value €75 Total value ≈ €205	UTM 2028 Voucher — €45 + partner products and/or benefits ≈ €75 Total value ≈ €120	UTM 2028 Voucher — €35 + partner products and/or benefits ≈ €45 Total value ≈ €80

The commercial values stated for non-cash benefits are reference values. Where a minimum value is established, the precise composition may vary, but the total commercial value of the benefit awarded may not be lower than the amount announced.

1. TM 40K

The male winner and female winner of TM 40K each receive, cumulatively:

- a UTM 2028 Voucher worth €100, usable towards one competitive registration for UTM 2028;
- an accommodation experience for two people for two nights, with a reference commercial value of approximately €200, to be used outside the UTM event weekend and in accordance with the booking and use conditions established by the relevant partner;
- a technical and/or sports-nutrition product kit with a reference commercial value of approximately €150.

The prize awarded to the male and female winners of TM 40K therefore represents a total reference value of approximately €450 per athlete.

The second-placed man and woman receive a UTM 2028 Voucher worth €70, plus partner products and/or benefits with a reference commercial value of approximately €180, representing a total reference value of approximately €250 per athlete.

The third-placed man and woman receive a UTM 2028 Voucher worth €50, plus partner products and/or benefits with a reference commercial value of approximately €100, representing a total reference value of approximately €150 per athlete.

2. MTM 25K

The male winner and female winner of MTM 25K each receive, cumulatively:

- a) a UTM 2028 Voucher worth €70, usable towards one competitive registration for UTM 2028;
- b) an accommodation experience for two people for one night, with a reference commercial value of approximately €100, subject to the booking and use conditions established by the relevant partner;
- c) a technical and/or sports-nutrition product kit with a minimum commercial value of €100.

The package represents a total reference value of approximately €270 per winning athlete.

The second-placed man and woman receive a UTM 2028 Voucher worth €50, plus partner products and/or benefits with a reference commercial value of approximately €100, representing a total reference value of approximately €150 per athlete.

The third-placed man and woman receive a UTM 2028 Voucher worth €40, plus partner products and/or benefits with a reference commercial value of approximately €60, representing a total reference value of approximately €100 per athlete.

3. TMC 15K

The male winner and female winner of TMC 15K each receive, cumulatively:

- a) a UTM 2028 Voucher worth €60, usable towards one competitive registration for UTM 2028;
- b) an accommodation experience for two people for one night, with a reference commercial value of approximately €70, subject to the booking and use conditions established by the relevant partner;
- c) a technical and/or sports-nutrition product kit with a minimum commercial value of €75.

The package represents a total reference value of approximately €205 per winning athlete.

The second-placed man and woman receive a UTM 2028 Voucher worth €45, plus partner products and/or benefits with a reference commercial value of approximately €75, representing a total reference value of approximately €120 per athlete.

The third-placed man and woman receive a UTM 2028 Voucher worth €35, plus partner products and/or benefits with a reference commercial value of approximately €45, representing a total reference value of approximately €80 per athlete.

4. COMPOSITION OF KITS AND ADDITIONAL BENEFITS

The products and/or benefits referred to above form part of the guaranteed minimum prize for each placing. The exact composition of kits, products and partner benefits may vary according to availability, range and references supplied by the relevant partners, provided that the nature of the benefit is preserved and a total commercial value equal to or greater than the amount announced is ensured.

The Organisation will publish through the official channels, as soon as finally confirmed, the partners, kit composition and, where applicable, the conditions for use of experiences or services. Such publication specifies the content of the benefits provided in this Article and may not reduce the guaranteed minimum value.

The Organisation may also award classified athletes additional products, offers, experiences or partner benefits. These are additional benefits and may not replace or reduce the guaranteed minimum prizes provided for in this Article.

The Organisation may enhance any prize package through new partners or additional benefits without needing to amend the minimum values already published.

5. VOUCHER CONDITIONS

Each voucher is personal, named, non-transferable and non-convertible into cash. It may be used for one competitive registration for UTM 2028, with its value deducted from the registration price applicable at the time of activation.

Where the price of the selected registration is lower than the voucher value, there is no refund, balance, remaining credit or cash conversion. The voucher applies exclusively to the registration fee and does not include options, products or services sold separately.

Activation must take place before payment is completed, within the deadline and according to the procedure published by the Organisation. Unless expressly stated otherwise, the voucher may not be combined with other vouchers, discounts or campaigns.

ARTICLE 8 — FREE TEAM ENTRIES FOR UTM 2028

The top three teams in the UTM-specific men's and women's classifications of TM 40K, MTM 25K and TMC 15K, calculated in accordance with Article 13 of Annex III, receive free entries for UTM 2028 in the quantities set out below:

RACE	1ST TEAM	2ND TEAM	3RD TEAM
TM 40K	3 free entries	2 free entries	1 free entry
MTM 25K	3 free entries	2 free entries	1 free entry
TMC 15K	3 free entries	2 free entries	1 free entry

Each free team entry must be used in the same race and distance in which the team achieved its 2027 placing: TM 40K for TM 40K, MTM 25K for MTM 25K and TMC 15K for TMC 15K.

The benefit belongs to the classified team and may be allocated by its representative to athletes registering for UTM 2028 under the same team name. The beneficiaries do not have to be the same three athletes who scored for the 2027 team classification.

Free entries may not be transferred to another team, another race or another distance and may not be converted into cash, credit or another benefit. They cover the registration fee only and do not include options, products or services sold separately.

Activation must take place before payment is completed, within the deadline and according to the procedure published by the Organisation. Unless expressly stated otherwise, free entries may not be combined with other vouchers, discounts or campaigns.

ARTICLE 9 — OFFICIAL SEGMENTS

Segments are defined sections of the official course and form part of the total race effort; they are not separate competitions. Segment times are determined by the official timing system and the control points defined by the Organisation.

SEGMENT	ELIGIBILITY	MEN'S PRIZE	WOMEN'S PRIZE
Temple Ascent — Mondim de Basto → Senhora da Graça	UTME 120K	250 €	250 €
Marão Vertical Kilometre (KMV)	UTME 120K + UTM 60K, common absolute classification	300 €	300 €

Temple Ascent — Mondim de Basto → Senhora da Graça: a segment exclusive to UTME 120K. The start is the official timing point installed under the UTME start arch in Mondim de Basto. The finish is the official timing point located approximately five metres from the entrance to the Chapel/Sanctuary of Nossa Senhora da Graça.

Marão Vertical Kilometre (KMV): a segment common to UTME 120K and UTM 60K. The start and finish correspond to the official timing points defined by the Organisation on the official KMV route. Geographical points and reference coordinates are published in the official technical documentation for the edition and must coincide with the reference points used for record comparison.

The KMV has one men's classification and one women's classification, jointly comprising athletes from UTME and UTM, with no separation by distance. A segment classification does not alter an athlete's position in the overall classification of the relevant race.

ARTICLE 10 — CONDITIONS FOR A SEGMENT PRIZE

An athlete is only eligible if they: complete the entire race for which they are registered; finish within the top 10% of the final overall classification for their respective race distance, regardless of gender; comply with the regulations; and have not taken shortcuts, received unauthorised external assistance, or been disqualified.

For the purposes of applying the top 10% criterion, the total number of classified athletes who have completed the respective race shall be taken into account. Whenever the calculation results in a decimal number, it shall be rounded up to the next whole number.

For the Ascensão ao Templo segment, this criterion applies exclusively to the final overall classification of the UTME 120K.

For the Quilómetro Vertical do Marão (KMV), eligibility shall be determined separately based on the final overall classification of either the UTME 120K or the UTM 60K, according to the race distance in which each athlete participated.

For the KMV, there shall be a single men's classification and a single women's classification combining all eligible athletes from the UTME 120K and UTM 60K, without distinction between race distances. Prizes shall be awarded to the athletes recording the fastest segment times in each gender category.

ARTICLE 11 — ABSOLUTE RACE RECORDS

RACE	MEN'S REFERENCE RECORD	WOMEN'S REFERENCE RECORD	PRIZE FOR A NEW RECORD
UTME 120K	15:05:45.180 Guilherme Lourenço (PT) (2024)	17:49:45.997 Patrícia Ribeiro (PT) (2025)	1.000 €
UTM 60K	06:37:28.190 Erland Eldrup (NOR) (2025)	08:35:07.723 Célia Neto (PT) (2024)	600 €
TM 40K	03:52:05.610 Lucas Hernández (ESP) (2026)	04:46:22.420 Paula Barbosa (PT) (2023)	Trail running shoes + product Minimum total commercial value ≈ €250
MTM 25K	01:46:57.457 Paulo Costa (PT) (2026)	02:17:01.050 Cátia Ferreira (PT) (2026)	Trail running shoes + product Minimum total commercial value ≈ €200
TMC 15K	00:59:37.017 Afonso Simões (PT) (2026)	01:22:15.603 Catarina Ribeiro (PT) (2024)	Trail running shoes + product Minimum total commercial value ≈ €150

The times shown in the table are the official UTM reference records recognised by the Organisation for the 2027 edition and identify, for each race and gender, the relevant time, record holder and year in which the performance was achieved. Their use as reference records assumes that the course is considered competitively comparable in accordance with Article 14.

For UTME 120K and UTM 60K, breaking the relevant absolute record entitles the athlete to the cash record bonus shown in the table, cumulative with the cash prize corresponding to the overall classification.

For TM 40K, the male athlete and female athlete who set a new official absolute race record receive a prize consisting of one pair of trail running shoes and one technical product, sports-nutrition product or other benefit provided by an official partner, with a minimum total commercial value of €250.

For MTM 25K, the male athlete and female athlete who set a new official absolute race record receive a prize consisting of one pair of trail running shoes and one technical product, sports-nutrition product or other benefit provided by an official partner, with a minimum total commercial value of €200.

For TMC 15K, the male athlete and female athlete who set a new official absolute race record receive a prize consisting of one pair of trail running shoes and one technical product, sports-nutrition product or other benefit provided by an official partner, with a minimum total commercial value of €150.

Record prizes are awarded separately in the men's and women's classifications and are cumulative with the other prizes, vouchers and benefits arising from the overall classification. There is one record

prize per gender and per race in each edition. Where two or more athletes beat the previous reference record, the prize is awarded exclusively to the athlete who records the best new official time.

To be eligible for any record prize, the athlete must validly finish the race, complete the entire course and all controls, not be disqualified and comply with the applicable anti-doping, external-assistance and competitive-integrity rules. Times obtained solely from personal watches, apps, GPS devices or other personal systems do not, by themselves, constitute proof of a record. Where two or more athletes record exactly the same best official time and that time establishes a new record, all may be recognised as record holders for historical and statistical purposes; however, the prize is awarded exclusively to the athlete who appears in the higher position in the official overall classification of the relevant race and is neither divided nor duplicated.

ARTICLE 12 — SEGMENT RECORDS

A new best official historical segment time is recorded as a UTM reference. There is no automatic cash bonus for a segment record unless announced in writing before the start.

ARTICLE 13 — GENERAL ELIGIBILITY FOR PRIZES AND VOUCHERS

To receive any prize, voucher or free entry, the athlete must be validly registered; complete the race where the benefit depends on finishing; comply with the course and controls; not be disqualified; and comply with the anti-doping and competitive-integrity rules.

Where an official investigation is pending and may affect eligibility, the Organisation may temporarily suspend payment, issue or activation of the benefit until a reasonable decision is made, informing the athlete or team of the reason.

Where the result giving rise to the prize is subject to FPA validation, eligibility also depends on validation of the result and compliance with the applicable federation rules.

ARTICLE 14 — COURSE CHANGE OR NEUTRALISATION

If a course change makes a segment materially incomparable or prevents equal conditions, the prize for that segment may be cancelled for the edition without affecting overall prizes that can still be validly determined.

A time is recognised as an official UTM record only where the course actually completed allows a competitively valid comparison with the reference course, particularly as regards start and finish points, route and essential race characteristics.

A material course change, neutralisation or other circumstance that makes comparison technically invalid prevents recognition of a record for that edition, without affecting the validity of the overall classification where it can still be determined reliably.

ARTICLE 15 — EQUAL TIME AND JOINT FINISH

For the award of prizes, vouchers or other benefits, the position shown in the official overall classification of the relevant race or in the official segment classification prevails.

A simultaneous, voluntary or agreed finish by two or more athletes does not create a classification tie or entitle the athletes to the same position, prize, voucher or benefit.

Where two or more athletes have the same official time in the published result, the successive positions established in the official classification apply, in accordance with Article 12 of Annex III.

Prizes, vouchers and other benefits are awarded exclusively according to those positions, and there is no duplication of prizes as a result of a joint finish or identical official times.

Where official times differ, the order shown in the official classification prevails.

Subsequent positions are numbered in accordance with the official classification.

ARTICLE 16 — PODIUM CEREMONIES AND PRIZE PRESENTATION

Podium ceremonies form part of the official UTM programme and constitute a formal moment of sporting recognition before the public, partners, sponsors and attending organisations.

For the 2027 edition, the TM 40K podium ceremony takes place on Saturday, 3 April, at 16:00. The UTME 120K, UTM 60K, MTM 25K and TMC 15K ceremonies take place on Sunday, 4 April, from 14:00. The precise order of races, classifications and prizes within each ceremony is published by the Organisation.

Team prizes and segment prizes are presented at the ceremony corresponding to the race to which they relate. The Temple Ascent and Marão Vertical Kilometre (KMV) segment prizes are presented at the Sunday ceremony.

Only the athlete officially classified in the prize-winning position may take the podium for that placing. Substitution by a family member, coach, official, teammate, representative or any third party is not permitted.

For team podiums, only the three athletes whose results determined the team classification under Article 13 of Annex III may take the podium. The absence of one or more of those athletes may not be filled by other athletes, officials or team representatives.

Attendance at the podium ceremony is a condition for receiving the individual prizes associated with the relevant placing, including trophies, physical items, cash prizes, vouchers and other benefits provided for in this Annex.

Unjustified failure to attend the ceremony results in definitive loss of the relevant prize or benefit, without altering the sporting classification achieved. A forfeited prize or benefit does not pass to the next classified athlete, is not redistributed and does not give rise to later compensation.

An exception applies where there is an exceptional and reasonable circumstance, duly evidenced and accepted by the Race Direction, including hospitalisation, evacuation, a disabling injury arising from participation, a serious family emergency, force majeure or an occurrence of equivalent seriousness. The impediment must be communicated to the Organisation as soon as reasonably possible and, whenever circumstances allow, before the ceremony begins.

Professional commitments, previously planned travel, a decision to return home early or reasons of mere personal convenience do not, by themselves, constitute an exceptional and reasonable circumstance.

Where absence is considered justified under this Article, the athlete retains the right to the prize or benefit but may not be represented by a third party on the podium. Later collection of a trophy or physical item takes place at the location and within the period indicated by the Organisation, which is not obliged to ship it.

The forfeiture regime for non-attendance under this Article applies to individual prizes. For team prizes, ownership and payment remain governed by Article 6, without prejudice to the rule that only the three scoring athletes may participate in the podium ceremony.

At ceremonies governed by FPA regulations, athletes must attend at the indicated time wearing appropriate sports clothing and, where applicable, club-representative kit, complying with federation rules concerning footwear, flags, scarves, symbols and unauthorised messages.

ARTICLE 17 — DOCUMENTATION FOR PAYMENT OF CASH PRIZES

This Article applies exclusively to cash prizes.

Within a maximum of 30 consecutive days after official notification of the award, the prize-winning athlete must provide the Organisation with all documentation required for payment.

The documentation must include:

- a) full identification of the prize winner;
- b) tax identification number or equivalent tax identification;
- c) IBAN and, where applicable, SWIFT/BIC;
- d) an invoice-receipt or legally admissible equivalent tax document, issued by the prize winner in their own name and containing their tax identification and any other legally required information;
- e) a tax-residence certificate, where applicable, particularly where required to determine the tax regime, withholding tax or application of a double-taxation convention;
- f) any other information strictly necessary to comply with the tax and accounting obligations legally applicable to payment.

Tax documentation must correspond to the person to whom the prize was officially awarded. Documentation issued in the name of a third party is not accepted, without prejudice to the specific regime for team prizes provided in this Annex.

Failure to provide all mandatory documentation within the 30-day period results in definitive loss of the right to the cash prize, without the need for further notice from the Organisation.

For the purposes of the preceding paragraph, the deadline is met where all required documentation has been received by the Organisation within 30 days and is capable of validation. Submission of incomplete or invalid documentation, or documentation issued in the name of a person other than the prize winner, does not suspend or interrupt the deadline.

Where, within the deadline, the Organisation identifies a merely formal irregularity capable of correction, it may request correction provided that this does not automatically extend the regulatory submission deadline.

For team cash prizes, tax documentation must be issued by the entity or person formally designated and legally entitled to receive the prize on behalf of the team under Article 6. The prize may not be split or individually claimed by the athletes who contributed to the team classification.

ARTICLE 18 — DEADLINE FOR PAYMENT OF CASH PRIZES

After complete receipt and validation of the documentation required by Article 17, the Organisation has a maximum of 30 consecutive days to pay the cash prize.

The payment period starts only on the date when all required documentation is complete, valid and tax-compliant for payment processing.

Payment is made to the bank account indicated by the prize winner in the validated documentation, without prejudice to withholding tax, tax obligations or other legally applicable procedures.

The payment period may be suspended where there is a pending anti-doping investigation, sporting decision, legal or tax impediment, authority order or other circumstance that legally prevents payment, and resumes when the impediment ends.

ARTICLE 19 — OWNERSHIP OF THE PRIZE

The prize, voucher or benefit belongs to the athlete or team to whom it was officially awarded. An individual voucher may not be transferred to another athlete by private agreement. For the team benefits under Article 8, ownership belongs to the team and its representative may designate the beneficiary athletes within the stated limits; the benefit may not be assigned to another team. Payment to a tax representative, legal successor or team entity is permitted where provided by law or these Regulations and adequately evidenced.

ARTICLE 20 — INVALIDATION, RECLASSIFICATION AND RESTITUTION

A prize, voucher, free entry, benefit, segment classification or record is invalidated where the result giving rise to it is subsequently annulled, including because of DNF or withdrawal where completion is an eligibility condition, disqualification, doping, fraud or race-bib/chip exchange, shortcut, decisive failure at a control point, unauthorised external assistance or another infringement rendering the athlete or team ineligible.

Where the classification can validly be reconstructed, the prize, voucher or benefit passes to the next eligible athlete or team.

If a cash prize has already been paid, the Organisation may require repayment in accordance with the law. Where a non-cash benefit has already been delivered and physical return is impossible or unreasonable, the legal and regulatory consequences permitted in the specific circumstances apply.

Invalidation of an athlete who received a record prize or bonus results in reassessment of the record and corresponding prize or bonus based on the remaining officially valid results of the edition.

ARTICLE 21 — PRIZE-RELATED COMPLAINTS

Questions concerning classification, eligibility or penalties follow the complaint procedure in Annex III. Purely administrative questions concerning payment, issue or activation of a prize, voucher, benefit or free entry must be submitted in writing within 30 days after communication of the payment, benefit or refusal.

ARTICLE 22 — OFFICIAL PROOF AND PERSONAL DEVICES

Times from personal watches, apps or GPS devices do not replace official timing. They may be considered as supporting evidence only where there is a technical failure and the Organisation considers that they help clarify the occurrence together with official records.

ARTICLE 23 — GUARANTEE OF PUBLISHED VALUES AND BENEFITS

The monetary amounts, voucher values, numbers of free entries, minimum commercial values of benefit packages and minimum commercial values of record prizes stated in this Annex are fixed for the 2027 edition from the date of publication and may not be reduced after registration opens for the athletes concerned, unless required by law. Where the precise composition of a kit, product, experience, partner prize or benefit depends on partner availability, the Organisation may replace it provided that a benefit of the same nature and with a reference commercial value equal to or greater than the announced value is ensured. A change in the composition of a kit or partner prize may under no circumstances be used to reduce the minimum total value guaranteed to the athlete. The Organisation may create, add or enhance additional prizes and benefits at any time provided that this does not result in reduction, unfavourable substitution or elimination of prizes and benefits already guaranteed.

ARTICLE 24 — ACCEPTANCE AND ENTRY INTO FORCE

Participation implies acceptance of these Regulations. The text published before registration forms part of the conditions of the 2027 edition, without prejudice to purely material corrections or subsequent amendments that are favourable to athletes and do not reduce previously announced rights, prizes or minimum benefits.
